WORK EXPERIENCE

BNY MELLON

Full Stack Engineer II

Pune, India
July 2022 - Present

- Spearheaded the development of BNY Mellon's ODS-Studio as a **full-stack developer**, a flagship project used by **50,000+** employees, enhancing user experience and aligning with **customer-centric values** in an **Agile-based team**.
- Implemented various UI screens on the ODS-Studio in **Angular** and **Typescript**, and created various **Rest API** endpoints and error **logger services** using **SpringBoot**. Also built connections to **AWS S3** bucket to fetch data.
- Led end-to-end creation of globally deployed widgets: "Price Compare" and "Monthly Account Status," impacting **100,000+** clients worldwide, showcasing **ownership** and **leadership**.
- Automated the creation of **application.yml** files for MQ processing and dataset onboarding using **Java**, **Rest**, and **SpringBoot**.
- Developed the ingestion layer for the multiple datasets, including subscribing and publishing to IBM MQs in an **event-driven architecture** model, which included ingestion and processing of over **5 million** messages streamlined in a single module.
- **Increased test coverage** by writing unit tests using **JUnit** to over **80%** in multiple modules of ODS-Studio, API, and Ingestion Layer.

STANDARD CHARTERED GBS

Software Development Intern

Remote
May 2021 – July 2021

- Conducted comprehensive research on ETL processes and identified optimal tools for seamless data transformation.
- Spearheaded implementation of **Grafana** Dashboards for ETL metric monitoring, utilizing **Python** to establish connectivity with Oracle Database.
- Achieved cost optimization by transitioning from Grafana Enterprise, resulting in savings of **\$100 per user**.

EDUCATION

DELHI TECHNOLOGICAL UNIVERSITY

Bachelor of Technology in Computer Engineering | **GPA 8.74/10**

Delhi, India
May 2022

SKILLS

C++, OOPS, Data Structures, Algorithms, OS, Computer Networks, DBMS, HTML, CSS, JavaScript, Angular, TypeScript, MySQL, Git, SpringBoot, RestAPI
